Fansestock's Ver tween the parties as a cause of the deed which has mi uge. been done, and Mr. Cexxixguan is represented as a man who has hitherto maintained the reputation of a quiet, inoffensive citizen.

WHAT IS SAID OF THE LEGISLATURE,-The Nushville * wrrespondent of the Rogersville Scalinel, in his leter of the 3d inst., writes as follows:

Both branches of the Legislature are presided strict-construction Democrat of the strictest sectone of these who believe the greatest danger to our exstem of government is to be apprehended from the exercise of manthorized and doubtful powers by the General Government, and that the greatest security and largest amount of prosperity is to be attained by restricting the Federal Government to its clearly defined constitutional powers. He is well suited by nature for the position he occupies; dignified, courteous, and at the same time firm and de-cided in his ruling. He commands the respect and approvval of the body over which he presides. Whitthorne, though not quite so commanding in his habitue, possesses all the requisite characteristies for the difficult position of Speaker of the House. With a clear, sonorous voice, the most rigid impartiality and a promptness indispensable to only

efficiency in his position. He presides to the entire satisfaction of both sides of the House. In fact they are both men, personally, politically and socialv. after my own heart. We have many promising men in the Legislature just making his debut into political life.

Prominent among them is Lea, of Haywood, who is f industry and close attention to the business of the body of which he is a member. Our old friend Critz, always true, safe and to be relied upon, evinces strong, practical sense in all his acts and domgs. I, myself, am proud that Hawkins county has so worthy a member. It was her wont years ago to send him even when the "stately Netherland" aspired to the position.

Bob Johnson is gaining the highest compliments that could be paid him—"that he is a chip of the old block," may in all candor be said of him. He is a clever, modest, genial gentleman, and Democra cy pure, Unadulterated Democracy pervades every fibre of his existence. He is among the younge members of the Legislature, but occupies a posiwhich would be creditable to maturer years.

SHAKESPEARS IT ARKANSAS -- AN INCIDENT IN THE LIFE OF THE "C"SAT LETTLE TRAGEDIAN."-The Cin cinnati Enquirer prints an amusing incident in the life of Mr. J. B. ROBERTS, the "Great Little Tragedian," which will be enjoyed by the admirers of that gentleman hereabout. The scene occurred in Arkansas, and was originally told by Captain Fuank May, at that time the awar courrier of the distinguished representative of "Sir Giles Overreach" limited and dangerous diseases to which the female constitution is subject it moderates all excesses and removes all obstructions, and "Richard the Third." Of course it lost noth- and a seesy cure may be relied on.

To Married Ladies ing by the embellishments given it by "the sub-

quirer, while Mr. Rountrs was making a round of which was a temporary platform that answered the postage stamp purpose of a stage. The tragedian did not expect to find in this Bostian province a splendid dramatic temple, brilliantly illuminated, with a thousand jets ble manner, under the circumstances, to the immense

delight of the patrons of the drama in that section. After a few evenings Captain Max, while in conversation with a party of gentlemen who not only wersation with a party of gentlemen who not only affected the drama, but took it under their especial supervision, expressed his regrets that the building was so small, and the company unequal to the prowas so small, and the company unequal to the prowas so small, and the company unequal to the pro-dection of some of SHAMESPEARE'S plays, in which, he assured them, the "great little tradegian" was without a rival. "You should see his 'Hamlet,' (Othelwithout a rival, "You should see his 'Hamlet," (Othello' and 'King Lear," exclaimed the enthusiastic
agent, "they are gems of histrionic beauty." "Well,"
allowly replied one of the party, in a half-confidential tone, as if about to impart something that might
tial tone, as if about to impart something that might

New York Money Market.

From the New York News, Nov. 14 The Money market has continued to show during the week con-ider bie ease, although the demand on long time paper has been ath r more extensive than itsual. In call loans there appears o be a failing off, which we account for upon the ground that the aks have seen rather more liberal to their customers in cuve, we cannot expect any material change in the t for months to come, unless more activity is in months paper 61, 67 % P cent is the general rate. lass paper the rates are from 8 to 12 \$ cent. The ships ecie sy the Arago, which left this port for Southampton The Foreign Exchange market was, at the close of the businor the week, extremely dull, but rates were steady at the following quotations: Banker's bills on Landon 110 a 110; on Paris 57

The Scork Parket closes the week with considerable weakness and a reduction in process, and the depression extends thoughout the list. Tempesse 6s declined \$\frac{1}{2}\$; Cent, Virginia 6s \$\frac{1}{2}\$; Missionri 6s \$\frac{1}{2}\$; New York Central \$\frac{1}{2}\$; Huds in \$\frac{1}{2}\$; Reading \$\frac{1}{2}\$; Michigan Central \$\frac{1}{2}\$; Michigan Southern new \$\frac{1}{2}\$; Galeina and Chicago 1; Cleveland and Tuled \$\frac{1}{2}\$; Cleveland and Tuled \$\frac{1}{2}\$; Cleveland and took Island I; and Priciple Mail I.

The scork board continues to suffer from a want of outside purchasers, who have been rather backward since the couls. chasers, who have been rather bankward since the crisis of 1857 is entering into the crisis of 1857 is entering into the stock operations in the same manner that the have do e herectores. It is probable that at least \$25,000 000 were look by the falling of prices on stock during the panic by the merchants and capitalists of this city alone. Besides which the fact, we are of the opinion that the males, to any great exten

railrout stocks, has passed away, and the market must be sur led with good iron and coal atorks before the public will aga

Illinois Banking. The Cincinnati Gasette contains the following exposition o the Lilineis system of banking: Illinois is corned above any State that we know of, with an in frior corrency. It is the great field for irresponsible banners and financial abargers, who are growing rich at the expense of the index risk classes. The so called banks of that State have the indus risk classes. The so called banks of that State have now a circulation of over nice millions. Their issues are called money, but the fact is they fall short by I \(\frac{1}{2} \) per cent of the value of gold, and to this extent the people are taxed to sustain the banks. A sharper with a capital of two or three thousand dollars, can get up a \$50,000 bank in Itimois by purchansing bonds to that amount to start upon. As he deposits his securities, he issues his notes, and these once out, he does not protend to redeem in gold when presented, consequently he first shaves has customers by paying them an inferior currency, and thus shaves them in exchange, and so on to the end of the chapter. We suppose it is sufe to say that the people of Illinois lose half a million a year by their banks, without allowing anything for the less of ial character of a people is measured by the standing of their anks. If the issues of the banks which supply the people of the Sta'e with a circulating medium are several per cent below par the credit of a people who statain such institutions will be dis-counted in a still great r proportion. There ought to be a saf-

counted in a still great r proportion. There ought to be a safe and honest system of banking in Illinois, such as the citizens of Onio. Kentocky and Indiana erjoy, and there would be such a system there if the existing tribe of shinplastic concerns could be removed; but as an infrior currency takes possession of the field in which it is permitted to circulate as money, so inferior banks exclude legitimate testactions. As it is now, Illinois is no place for an honest banker. We do not say there are no bornest bank ers there, but it is no place for them if they want to make money and preserves good character. The continuance of this state of of things in Itilinois will depend upon the action of the next Legislature.

Breadstuffs.

The Cincinnati Gazztte of the 15th says :

the flour market continues to the same position it was a week ago. These who hold it, firm in the belief that price will be not the score or a later and a large muscler who do not over it was ions to make into cochects to take say efficiently for a large on the later on the later and a large muscler who do not over it was ions to make into cochects to take say efficiently for itself on the later on the later and later and the later and late cutative demand for any article; this has been so often demo ated, that it does not require argume: the proveits security.

SURE AND RELIABLE INDICATOR OF THE STATE OF Indicating Unvariably from 24 to 48 hours in advance. In advance.

In advance.

Louis ULLMAN, the Discoverer of this cu-lourand beautiful exotic, which is a native of the Arabian Desert, near Damscus, it Asia, was the first to apply it to the purpose of a Weather Indicator, having discovered its weatherful qualities by a minute examination in the mative land of the plant.

Though a vegetable projuction, the Natural Weather Indicator is indestructible, and will continue to perform its functions for all time, in any climate and at all seasons, though submerred in all the strongest acids known to chemists, including Nitrie, Nitro Murinic, Sulphuric, Acc, to absiling water and heiling oil, and los water. It remains intact, and outlined it performances animpaired, losing none of its sensitiveness or causaffy; and will not decay like other organic or artificial substances, used for similar purposes.
The "Natural Weather Indicator" can be procured for the low count of a rumor that a rescue of Brown is to be attempted. The "Matural Weather Indicator" can be procured for the low price of \$1.00, prognosticates the weather with equal certainty and durability as the barometer, which costs \$25 to \$35, and is

and durability as the barometer, which costs \$25 to \$35, and is easily impaired.

The Navagat Wattum Indicator was sever known to the world before in reduced by the subscribers, and he now for the first time offers it to the public for sale. Its wonderful properties and america. It is so simple and managenable that no difficulty will be found it testing its value. The discoverer is not under the ynoccessty of saying anything in its merits on his own responsibility, as he is permitted to offer certificates from gentlemen who have tested it, of such a character as to put all doubt at rest.

By permission I peller to the following mained gentlemen, some of which we have tested its findshater for a number of years, and others for several months, all of whom have no hesitation in recommending it to the favorable notice and use of the public in general

ton City.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM Worn by Kings or Emperors What! Why a Beautiful Head of Hair. BECAUSE it is the ornament 6.2d Himself provided for all

DECAUSE it is the ornament 63d Himself provided for all our race. Render, although the rose may bloom ever so brightly in the glowing check, the eye be ever so sparkling, the teeth be those of pearls, if the losad is bereft of its covering, or the hair be snarled and shriveled, larrak dind dry, or worse still, if sprinkied with gray, nature will lose half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all, suck an ornament. Rend the following and judge. The writer is the celebrated Planiat, Thatberg:

DR. Wood:—

NRW YORK, April 18, 1856.

Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color about the time of my arrival in the United States it was rapidly becoming gray, bu tupon the application of your "Hair Restorative" it recovered its original hue. I consider your Restorative as a very wonderful invention, quite effectious as well as agreeable.

1 am, dear sir, yours truly,

2. THALBERG.

Welsh Newpaper office, 13 Nassau st., April 12, 1858.

Paor G. J. Woon: Dear Sir—Some month or six weeks age
I received a buttle of your Hair Restorative and gave it my wife,
who coucluded to try it on her hair, little thinking at the time
that it would restore the gray hair to its original color, but to her
as well as my surprise, after a few weeks trial it has performed
that wonderful effect of turning all the gray hairs to adark brown,
at the same time beautifying and thickening the hair. I strongly
recommend the above Restorative to all persons in wast of such a
cangeh of their hair.

New York, July 25, 1837. cangeh of their hair.

CHARLES CARDEW.

Progr. O. J. Wood: With confidence do I recommend you Hair Restorative, as being the most efficacious article I ever saw Since using your Hair Restorative my hair and whisters which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unlessent lichir z accommon more were accommendation. ant itching, so common among persons who perspire from Paor. Wood-About two years ago my hair commerced falling of and turning gray; I was fast becoming bald, and had tried many remodies to no effect. I commerced using your Restorative in January last. A few applications fastened my hair firmly, It began to fill up, grow ous, and turned back to its former color (black). At this time it is sully restored to its original color, health, and appearance, and I cheerfully recommend its use to all. Chicago, II., May 7, 1857.

The Restorative is put up to bottles of 3 sizes, viz: large, meating and small the small balls to a sint and appearance, and its size of the small property of the state of the small property of the small property of the small position of the small property of the small property of the small position of the small property the Restorative is put up in bottles of 3 sizes, vis: large, medicm and small; the small holds ½ a pint, and retails for one dollar per bot-le; the st-dium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent. more in proportion, and retailed for \$3.

O. J. WOOD & CO. Proposition. 210. Building left in the large holds.

RESPECTFULLY offers his Professional services so the pee usice and Residence Union and American Block, No. 4 North poyle-if HAVE in store a full assertment of Lappincott & Barr's cel-brated Fire Proof Safes, all size, which will be sold at manufacturer's proces. F.E. Hold. INGSWORTH, qctll. from which mankind suffer over a turn part or the globe, is the consequences of a discused action in the system, induced by the poisonous missan of vergetable docay. This exhalation is crobved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscers and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and preduce violent constitutional disorder. The opleon, the biletays, said the storagh sympathize with the liver, and become disordered also, Finally, the instinct of our organism, as if in an attempt to expel the body in the internal exerctarios to force them to each it out. The blood lawes the surface, and runkes to the central organs with congestive violence. rushes to the central organs with congestive violence. This is the CRILL. But in this effort it fails. Then the Pavez follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expet the irritating poison through that other creat to expel the irritating poison through that other great exceptory—the skin. In this also it fails, and the sys-tem abandons the attempt extrausted, washing for the recovery of strength is repeat the hopeless effort mother day. These are the fits or proxyams of Favelt and Ague. Such constitutional disorder will of course undermine the health if it is not you area. wrmine the health if it is not renoved.

We have labored to find, and have found, an antidote, Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does care this afflicting disorder with perfect certainty. And it does mone, or rather does what is of more service to those subject to this infection. If taker in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health al-hough exposed to the disease. Consequently it no: only cares, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Cnill Fever, Dumb, or Masked Ague, Periodical Residence, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Binchness, Toothache, Earache, Catarrh, Asthma, Palpitations, Pairful Affections of the Spheen, Hysterica, Colic, Paralysis, and Painful Affections of the Somach and B. wais, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Anun Cures" removes the cause of these darangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term accinatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "Agun Curaz" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheep a

PRFPARED BY DR. J. C. AYER & CO. LOWELL, MASS. PRICE ONE DOLLAR PER BOTTLE.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is en-tirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kep up to the best it ever has been, and that it may be relief on to do for their relief all it has ever been found to do. Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A PURGATIVE MEDICINE. FOR COSTIVENESS; FOR THE CURE OF DYSPEPSIA; FOR JAUNDICE; FOR THE CURE OF INDIGESTION; FOR HEADACHE;
FOR THE CURE OF DYBENTERY;
